

I have lived in the Paddington area for over 30 years and have been an active member of the community during this time. For example, I have served as the President of Paddington Public School for several years.

I work in the professional lighting and audio industry and specialize in the design and construction of lighting and audio systems for the hospitality and entertainment industries. My skills in this area give me a unique understanding latest technologies and developments in the club and entertainment sector.

Paddington Woollahra RSL is very important to me and the local community and in these challenging times I feel that the club can act as an important place for community. As a previous serving Director and President of the club I am well placed to contribute and act as a conduit for members to have their voices heard at a Board level.

I am keen to contribute to a 5 – 10 year plan for the club which leverages off the significant planned development in the area and considers the views of existing and needs of future members of the club. The future success of the club hinges on members contributing in a meaningful way.
